WORK EXPERIENCE

EG4 Electronics, Remote - Contract

March 2025 - Present

UI/UX Consultant- Leading the design of user interfaces for applications and contributing to their implementation in code. Collaborate with multiple departments to ensure responsive, user-centered designs align with project goals and technical requirements.

Outlier AI, Remote - Contract

October 2024 - March 2025

AI Training - Annotating data for AI model training, evaluating programming prompts and responses across multiple models along different metrics. Applying broad expertise in programming languages and topics, along with adept research skills, to ensure precise and prompt assessments.

Data Annotation, Remote - Contract

December 2023 - November 2024

AI Training - Annotating data for AI model training, evaluating programming prompts and responses across multiple models along different metrics. Applying broad expertise in programming languages and topics, along with adept research skills, to ensure precise and prompt assessments.

Tiger Staffing, LLC, Katy, TX

August 2022 - January 2023

Frontend Developer - Revitalized a recruiting agency's brand identity and website design, incorporating multilingual capabilities. Utilized Vue, Tailwind CSS, Java Spring Boot, and Figma to craft an intuitive user experience, including custom job posting and client intake features.

Fidelity Express, Sulphur Springs, TX

August 2018 - May 2019

Programming Intern - Collaborated with a team to design and develop a user-friendly Android app interfacing with existing APIs. Primarily specialized in enhancing transaction visibility for vendors and clients through UI/UX design, alongside involvement in server requests and data handling.

PROJECTS

BAC - Home App: Designed a proof-of-concept app interfacing with a Bluetooth breathalyzer to measure BAC levels, seamlessly integrating Twilio API for real-time messaging to mobile users.

Skills needed: Java, Android, UI/UX, Twilio

- Award: HackUTD VI Winner

Heads Up, Comets: Produced an online interactive map empowering students to explore local campus events, facilitating the creation of events and discussions between students within a dynamic platform.

Skills needed: Express, Vue, TailwindCSS

PayHere Network App: Engineered a mobile app interfacing with Fidelity Express's server, enabling seamless access to PayHere Network information for mobile users, and enhancing convenience and accessibility.

Skills needed: Java, Android, UI/UX
